

TROCAL InnoNova_70. A5 *classic*:
The slim window profile
with weather seal.

TROCAL InnoNova_70.A5 *classic*: The window with optimal functions.

» The solution for all architectural styles. TROCAL InnoNova_70.A5 *classic* features an offset arrangement of frame and sash and an attractively lean visible sight line to provide great potential for elaborate façade designs. Yet its convincing advantages are not only visual:

Weather seal.

This system features two seal levels. An internal and external permanently elastic weather seal provides the perfect protection between the sash and the window frame. Further advantage: the window's rebate is very easy to clean.

Five chambers.

The unique, honeycombed profile chambers enhance the window's inherent structural stability, while counteracting torsion.

Colour and design.

Colour gives windows and façades a new face. Utilize the many possibilities that the TROCAL colour range can give you.

Thermal insulation.

The 70mm deep profiles with U_f -value for the frame of $1.3\text{W/m}^2\text{K}$ will meet the requirements of even the most stringent energy world wide. Combine standards economy and ecology, it pays off short and longterm.
